THE PANAMA DECEPTION

Winner of the 1993 academy award for best documentary.

This documentary explores the untold story of the 1989 invasion of Panama; revealing General Manuel Noriega's long-standing relationship with the CIA, DEA, and George Bush; documenting the shocking events of the assault and the aftermath; uncovering the true motives for the invasion; and explaining how and why the mainstream bourgeois media collaborated with the u.\$ government to censor information and deceive the general public. In the wake of the Amerikan electoral farce, this film should be viewed with the awareness that when it comes to key questions like imperialist war against neocolonies like Panama, there is no difference between the Democrats, Republicans, and other bourgeois parties.
